

LADIES IN BLUES

Eileen is the creator and producer of the annual show Ladies in Blues . When the show started in March 1999 it was created to give greater exposure to the wonderful female singers and songwriters in Atlantic Canada .

This soon became a beloved annual event and in 2009 it was decided that for the 10th Anniversary to create a compilation cd of all the artists who have contributed through the years . This was also the first annual awards for Excellence in Music at the Anniversary show .

EILEEN JOYCE

SINGER SONGWRITER

EILEEN JOYCE

Eileen Joyce

Eileen Joyce is soulful, energetic and experienced singer/songwriter, producer and performer. Eileen receives stunning reviews of her cd's and live shows. She can shower you with old jazz from the 30'-50'era or get you up and dancing with her sassy and soulful originals in styles that inspire her R&B, Blues, Swing and Gospel .

Just Me and the Boys

Eileen Joyce's new project is all about the blues, personal and global but most importantly is getting over them too . Inspiring us to get on with life, and get together to help the world , all of this to some great funky grooves rocking blues beats, Three of the songs written with Woody Woods, the rest penned by Eileen and her co-writer and piano man Bill Harvey. There is only a couple of ballads but they will tear your heart out .

Eileen's well cast band of seasoned musicians all make it an exciting experience.

Also included on this cd will be the song that Eileen wrote and collaborated with Woody Woods from Las Vegas. The

song was inspired by World Vision and is called "One Vision "they are presently working on the video for this cut as well as two others..
